Config Variables

Config vars change the way your app behaves. In addition to creating your own, some add-ons come with their own.

Reveal Config Vars

Info

Region

United States

Stack

heroku-16

Framework

Node.js, PrinceXML

Slug size
30.5 MB of 500 MB

Heroku Git URL
`https://git.heroku.com/intense-ridge-75526.git`

Buildpacks

Buildpacks are scripts that are run when your app is deployed. They are used to install dependencies for your app and configure your environment.

Find [New Buildpacks at Heroku Elements \(https://elements.heroku.com/buildpacks\)](https://elements.heroku.com/buildpacks)

Buildpacks

Your new buildpack configuration will be used when this app is next deployed.

Add buildpack

(<https://dashboard.heroku.com/apps/intense-ridge-75526/settings#>)

Domains and certificates

Add your custom domains here then [point your DNS to Heroku \(https://devcenter.heroku.com/articles/custom-domains\)](https://devcenter.heroku.com/articles/custom-domains).

Domain Your app can be found at <https://intense-ridge-75526.herokuapp.com/>
(<https://intense-ridge-75526.herokuapp.com/>)

SSL Upgrade to paid dynos to configure Heroku SSL

Add domain

Custom domains will appear here

Custom domains allow you to access your app via one or more non-Heroku domain names (for example, www.yourcustomdomain.com)

Transfer Ownership

Transfer this app to your personal account or to an organization or team of which you are a member. [Learn More](https://devcenter.heroku.com/articles/transferring-apps)
(<https://devcenter.heroku.com/articles/transferring-apps>)

Transfer

Maintenance Mode

If you need to take your app offline you can turn on maintenance mode. [More info](https://devcenter.heroku.com/articles/maintenance-mode) (<https://devcenter.heroku.com/articles/maintenance-mode>)

Maintenance mode is off

Delete App

Deleting your app and its add-ons is irreversible.
